

nsi Simplicité PolyDip LED/UV

TIP AND OVERLAY WITH SECRETS SPARKLES

STEP 1:

Prep the natural nail. Apply a tip if an extension is desired. Apply **Simplicité Prep** to all 10 nails. Then apply **Simplicité Bond** to all 10 nails to ensure a strong bonded application.

STEP 2:

Apply a thin coat of **Simplicité Polybase** to the natural nail and tip of all 5 nails, and cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV for 2 minutes. Repeat on the other hand.

STEP 3:

Apply a thin coat of **Simplicité Polybase** to the natural nail and tip of all 5 nails. Slide and glide evenly into the **Simplicité Clear Powder**, at a 45 degree angle. Cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV for 2 minutes. Repeat on the other hand.

STEP 4:

Brush off excess powder using your **Plush Brush**. Apply a second thin coat of **Simplicité Polybase** to the natural nail and tip of all 5 nails. Slide and glide evenly into the **Powder Clear** of your choice, at a 45 degree angle leaving a margin at the cuticle line to prevent bulk. (Apex. If you need to create a higher apex, brush on the **Simpliticte Polybase** and slide and glide evenly at a 45 degree angle into the **Simplicité Clear powder**, 2/3rd of the length of the nail to create an apex). Cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV for 2 minutes. Repeat on the other hand.

STEP 5:

Brush off excess powder using your **NSI Plush Brush**. Apply a layer of **Simplicité Seal** to all 5 nails. Cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV 2 minute before you refine file. Repeat on the other hand. Refine file using your **180/240 Endurance Grit file**. Apply a third thin coat of **Simplicité Polybase** to the natural nail and tip. Slide and glide evenly at a 45 degree angle into the **Secrets Sparkle** of your choice, we used **Secrets Sparkle Stroke of Midnight**. Cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV for 2 minutes.

STEP 6:

Finish with a layer of **Simplicité Seal** on all 5 nails. Cure in the **NSI Dual Cure Lamp** LED for 30 seconds or UV 2 minutes. Repeat on the other hand. Using a lint free wipe, remove tacky disbursement layer with **Cleanse**. Apply **Nurture Oil** to cuticle area and massage.
